

How to import libraries for Modelsim:

- In Modelsim, click on File→ Import→ Libraries.
- This will open up a window, click on Browse and browse to the following path:
  - D:\Software\Modeltech\_xyz\_abc\Xilinx\Vhdl\Xilinxcorelib\  
Click on open.
- Click on next.
- Click on browse and browse to your current working project directory.
  - For example: Z:\john\lab2\  
Click on open.
- Click on next.

Repeat this procedure for the following libraries:

Unisim located at: D:\Software\Modeltech\_xyz\_abc\Xilinx\Vhdl\Unisim

Ieee located at: D:\Software\Modeltech\_xyz\_abc\ieee

Synopsys located at: D:\Software\Modeltech\_xyz\_abc\synopsys

Std located at: D:\Software\Modeltech\_xyz\_abc\std
