

Hand in solutions to the following problems.

(Note: "B & V" stands for "Brown and Vranesic", which is the course textbook, and "CR" stands for Course Reader on the course web page.)

1. CR Problem 19
2. CR Problem 20
3. Fall 2004 Final Exam, Problem # 3
4. Winter 2005 Final Exam, Problem # 6

(Note: If the Solutions to the previous years' Exam Problems are available on the course web site, then the following instructions apply for each of these problems: In order to get the maximum benefit, do not look at the Solutions until you complete your answers and go over them. Only then, look at the Solutions and understand where you may have gone wrong. You may correct your answers after you look at the Solutions of this problem. However, once you understand your mistake, you must write up your own solutions. We would still like to see your work on these problems **WITH YOUR EXPLANATIONS** as part of this problem set. Do **NOT** hand in just numbers. You must show us how you got those answers.)
